Bloomington-Normal

Lincoln

Springfield

Carlinville

Alton

Overall Map
Roadway Improvements

- New roadway work adjacent to tracks
- Improvement of roadway approaches to the railroad crossing
- New medians and sidewalks
- Culverts and drainage ditch improvements
- Curb and/or shoulder work to tie into existing roadway
- New pavement markings and signage
Other Track and Roadway Improvements

Will meet safety requirements of FRA, ICC, IDOT, and the High-Speed Rail Program

Will enhance traffic flow through the crossing areas
Benefits Achieved by Crossing Improvements

> Enhance the traffic flow through the intersections
> Provide wider medians, travel lanes and new sidewalks
> Improve safety conditions near railroad tracks for both pedestrians and vehicles
> Benefits vehicular traffic flow, access to intersections and parking due to roadway configuration changes
Crossing Approach/Grade Crossing Signage

- Pavement Markings
- Advanced Warning Signage
Four Quadrant Gate System

- Reinforce driver-gate compliance
- Prevent vehicles from entering the path of a train
Dwight Station

STATION IMPROVEMENTS

✓ New station south of the current location on Village property
✓ Construction began summer 2015
✓ Completion anticipated summer 2016
Pontiac Station

STATION IMPROVEMENTS

- New station southwest of the existing station on City property
- Construction anticipated to begin spring 2016
- Completion anticipated spring 2017
The City received a discretionary grant from IDOT to construct a new multi-modal facility and to make safety improvements at this station.

Completion anticipated summer/fall 2017.
