

Proposed Scope Of Work:

- Staged construction:
 - > Stage 1 to include roadway improvements along 600 N.
 - > Stage 2 to include roadway improvements along Route 66 (County Road 10).
- Track siding to be shifted west to provide 20 foot distance between track centers
- Existing overhead conveyor system from coal mine to remain
- Existing four quadrant gates to be relocated to accommodate new roadway improvements
- Construction to be complete between spring 2015 and fall 2016
